

Shenandoah Resource Conservation & Development Council

Repeat Project Proposals Policy

A. Purpose

The purpose of the Repeat Project Proposals policy is to offer guidance to the Shenandoah RC&D Council and to those submitting the same or similar proposals to the Shenandoah RC&D annually for consideration.

B. Repeat Proposals

It is the policy of the Shenandoah RC&D to support through technical and financial assistance, when available, projects representing a broad range of interests across the RC&D Area and consistent with the Area Plan and annual plan of work. In order to carry out priority work of the Council, it is the policy of the Shenandoah RC&D Council to fund the same or similar projects for no more than three consecutive years. After that, sponsors of successful projects that continue on an annual basis should develop other funding sources to support their interests. Exceptions to this policy may be made on a case-by-case basis after specific approval by the entire Council.

Adopted at Shenandoah RC&D Council Meeting on March 12, 2007
